Sean Fairfield
Director, Project Planning and Permitting
Algonquin Power Co.
354 Davis Road
Oakville ON L6J 2X1
By email to: sean.fairfield@algonquinpower.com

Dear Mr. Fairfield,

The Ministry of the Environment and Climate Change (MOECC) has reviewed the following amended stormwater management plan and erosion and sediment control plan (SWM and ESC Plan) for the switching station which was submitted in accordance with Condition H1 of Renewable Energy Approval (REA) No. 7123-9W9NH2, issued on August 24, 2015:

- *Amherst Island Wind Energy Project, Revised – Switching Station Stormwater Management (SWM) Brief, dated May 29, 2017, and signed by Dave Williams, P.Eng.*

Pursuant to Condition H2 of REA No. 7123-9W9NH2, please accept this letter as written approval of the amended SWM and ESC Plan for the switching station. This letter revokes and replaces my letter dated April 12, 2017 in respect of the previous SWM and ESC Plan for the switching station. Windlectric Inc. is requested to ensure that the above-noted document and this letter are made available on the project website.

Please note that in accordance with Conditions H1 and H2 of the REA, Windlectric Inc. must not commence construction of those project components which are not described in the above-noted document (or not described in any other SWM and ESC Plan approved by the Director) unless an applicable SWM and ESC Plan for said project components is submitted to and approved in writing by the Director.

Yours sincerely,

Mohsen Keyvani, P.Eng.
Director, Section 47.5 *Environmental Protection Act*
Ministry of the Environment and Climate Change
